

This **FibreLux Safety Mattress** is manufactured under stringent quality control and is delivered to you in perfect condition. This quality product carries **One-Year warranty** from the date of receipt / delivery.

HOW TO MAINTAIN YOUR MATTRESS IN GOOD CONDITION

A good quality mattress when well maintain can maximise the life of the mattress up to 12 years and above.

Please follow the instructions given below to obtain maximum benefits from your fibre mattress:

1. This mattress is self-ventilating. Every FibreLux fibre mattress come with a quality protective covering that allows free air movement
2. Vacuum the mattress few times a year for cleanliness and keeps up the hygiene
3. Place your mattress on a firm flat base to avoid sagging. Do not use a one-piece base that hinders ventilation
4. Always use a washable bed-sheet for cleanliness and hygiene purpose and changes of color of bed-sheet brightens up the decorations of the bedroom
5. This mattress is reversible, it is advisable to rotate and turn over every three months
6. Mattress should be taken out under the sun for ventilation and aired to allow free air movement every now and then
7. Mattress can be cleaned with a wet cloth if there are minor dirt
8. To remove baby's urine: allow for the mattress to be at standing position (not flatten position), rinse the portion using a cup of water and allow for the water to flow out and dry before use
9. Warranty will be void if there is stain mark, yellow mark, folded, cover torn or any in proper handling

This mattress is antiseptically treated for protection against bacteria and household insects
